EDUCATION

College

University College Cork (UCC)

B.A.(Hons) Psychology & Computer Science

2024, Cork City, Ireland

Degree Results

4.0 GPA | *First Class Honors*

Final Year Project

Result: 1H1 (First Class Honors)

An Exploration Into the Potential Use of Gamification and Conversational Learning in AI Ethics Education ([View Here](#))

High School

Barrington High School

High School Diploma

2017-2021, Barrington, Rhode Island, USA

SKILLS

Python Frameworks:

- PyTorch & TensorFlow
- Pandas & NumPy

AI/ML:

- Model Development & Deployment
- Machine Translation & NLP

Human-Centered Design:

- Human-Computer Interaction (HCI)
- Human Factors
- Cognitive & Applied Psychology

SUMMARY

Psychology and Computer Science graduate, looking to take the next steps in my career as a designer and developer. I have industry experience in developing and deploying AI models using tools such as TensorFlow and Microsoft Azure, and my undergraduate degree is rooted in user-centered design. I have an inter-disciplinary background in AI/ML, Human Factors, and Psychology, allowing me to excel in cross-functional environments.

WORK EXPERIENCE

Service & Repair Technician | Micro Center

Cambridge, Massachusetts, USA | November 2025 - Current

- Perform advanced system analytics and hardware diagnostics to determine failure points and solutions for a variety of systems.
- Own the full diagnostic-to-resolution lifecycle, identifying root causes and implementing effective and efficient solutions, with 85% of diagnostics completed the same day.

AI/ML Technology Intern | Johnson Controls

Cork City, Ireland | Oct 2024 – May 2025

- Led development of [AI translation tool](#) to evaluate and synthesize data, worked on user testing and implementation of RAG LLM
- Developed AI ethics framework to classify technical documentation risk to guide use for AI translations
- Applied structured, criteria-based evaluation methods to assess data quality and compliance with technical standards

Teaching Assistant - Python | University College Cork

Cork City, Ireland | Feb 2022 – Apr 2024

- Supported undergraduate Computer Science labs, guiding students in Python-based algorithm design and debugging.

Human Factors Engineer Co-Op | Veranex, Inc

Providence, Rhode Island, USA | Summer 2022

- Conducted usability studies for medical device clients, analyzing user interactions to derive actionable insights.
- Collaborated directly with the engineering and design team to implement findings into revised designs.

ACTIVITIES & AWARDS

- [UCC EmployAgility Award](#)
- Competed on the Irish National Fencing Circuit
 - Was Ranked 10th in Ireland for Men's Foil Fencing
- Hackathons - *Virginia Tech & Muenster Tech University*
